## CITADEL GROUP MEDIA RELEASE

### Australia's first vendor to receive BloodNet LIS interface certification

Canberra, Australia – The Citadel Group Limited (ASX: CGL) is pleased to announce that Citadel Health is the first Australian vendor to receive BloodNet Laboratory Information System (LIS) interface certification for BloodNet, the National Blood Authority's award winning online blood ordering and inventory management system.

BloodNet is a digital system that allows health practitioners throughout Australia to order blood and blood products efficiently and securely from the Australian Red Cross Blood Service. Citadel Health's BloodNet interface provides secure, efficient and accurate data transfer for stakeholders in the Australian blood sector. Citadel Health now has two interfaces into BloodNet implemented through Pathology North (eBlood) and Queensland Health (AUSLAB).

Citadel Health is a long-term, trusted health sector ICT provider which specialises in Digital Health, specialist Integration, Remote Monitoring, Video TeleHealth, LIS and hosted cloud solutions.
