

## CITADEL GROUP MEDIA RELEASE

### Australia's Largest Council Moves 15 Million Records to Secure Cloud

**Brisbane, Australia – 19 June 2019** – The Citadel Group's Information Exchange (Citadel-IX) has been implemented into Australia's largest council, Brisbane City Council (BCC). Citadel-IX provides organisations with a secure, cloud-hosted enterprise content management solution which delivers real business benefits, backed by a cost-effective, trusted and secure Microsoft Azure platform.

Citadel partnered with BCC to provide an end to end solution to transition their on-premise records management system to a secure, cloud hosted environment. Citadel's team of cloud and information management specialists upgraded BCC's existing application platform as part of the Citadel-IX implementation, delivering expert advice and support throughout the project. In addition to implementation services, BCC receive continued benefit through the Citadel-IX managed service, including ongoing maintenance and support for both application and infrastructure, end-to-end disaster recovery services and zero data loss.

Citadel-IX is currently the only ISO 27001 certified information management solution in Australia, with all data hosted and managed within Microsoft's Australian Azure data centres. The Citadel-IX platform is a highly scalable solution, designed to effortlessly adapt to the changing requirements of organisations, and can be deployed within an organisation efficiently and easily.

Citadel CEO Darren Stanley said 'We are proud to be working with BCC to transform the way they manage their information. Citadel-IX is a leading product which provides security, scalability and flexibility for organisations of all sizes.'
